PremiLine Patio Door

**KÖMMERLING®**

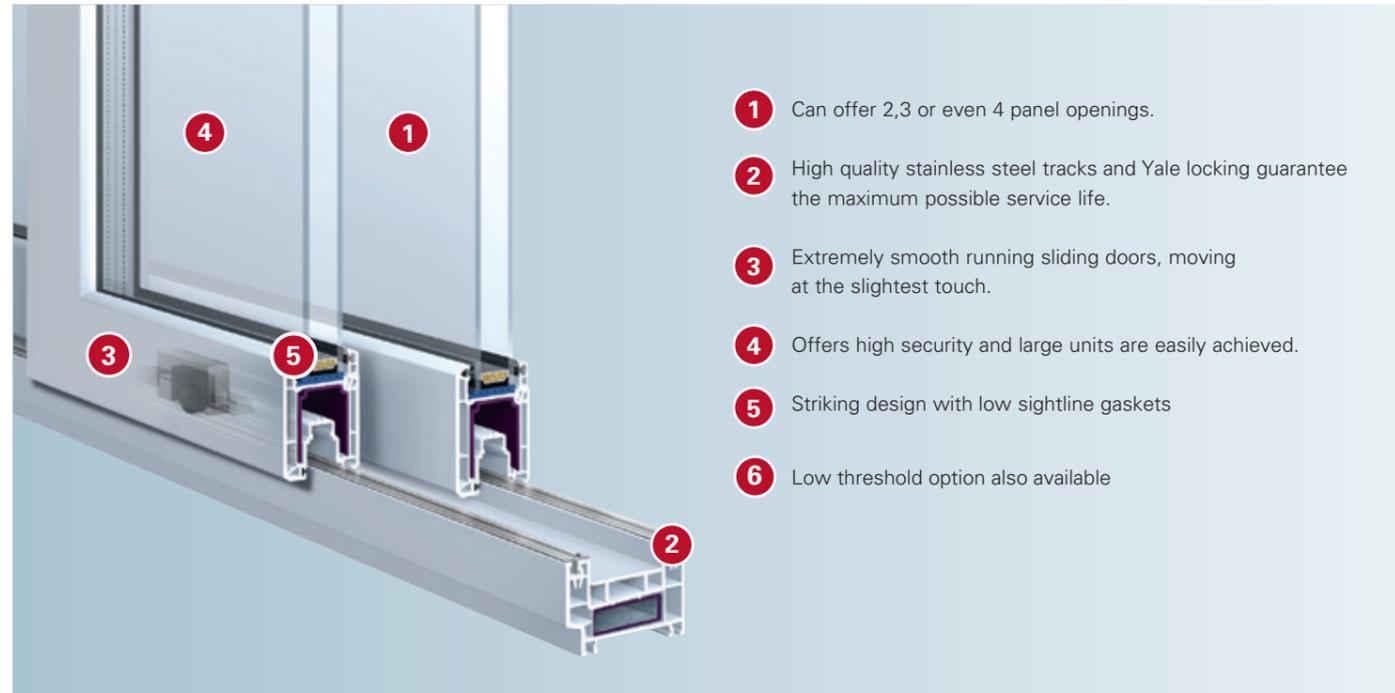

# Modern Living. **Perfectly Engineered.**

The modern way of living is all about maximising light and space in our homes, through the adoption of large glazed areas. The KÖMMERLING range of German-engineered PVCu door systems are unrivalled in the UK and can offer you a perfect door solution whatever the size and scale of your project.

## Innovation & Energy Efficiency.

The PremiLine patio door is packed full of features. It's designed to be easy to install and provide lasting performance. It's also been proven across Europe to withstand the harshest climatic conditions.

## Light & Space.

The PremiLine patio door from KÖMMERLING has been a market leader for several years, thanks to its proven design and lasting performance. It's also available in 9 colourways from the clean finish of flat white, to rich woodgrains such as Irish Oak and the 'in vogue' colourway of anthracite grey.

It's a perfect product to offer an unobstructed view of the garden or terrace, with the option of several locking handle finishes to suit all frame colours.

## Flexibility & Performance.

Our patio door range offers complete flexibility in 2, 3 and 4 pane options. KÖMMERLING is renowned for product design and our PremiLine patio door range perfectly supports this approach.

Multi-chambered profiles enhance the energy efficiency performance of the PremiLine patio door range, with enhanced security details and strong environmental credentials.

### High Performance

High quality stainless steel tracks guarantee the maximum possible service life. The design also allows for super smooth running sliding doors, moving at the slightest touch.
